Message from the President - Dana Williams

As 2019 comes to a close, I can say that becoming a part of Texas Women Fly Fishers has been one of the best things that has happened to me in my 40’s. I joined because I fell in love with fishing in 2017 after TWFF sponsored me at a Casting for Recovery retreat for breast cancer survivors, but what I am most amazed and pleased about is all the wonderful friends I have made through fly fishing. On any given week, I am talking to my TWFF fishing buddies about how to fish, where to fish, family, job and more. Thank you for supporting me in my first year of a two-year term as President. It is an honor and a privilege to represent Texas women in the fly fishing community.

This year, we enjoyed lots of fish, food, and fellowship on weekend outings on the Guadalupe River, Brazos/ Paluxy/Nolan Rivers, Nueces River, Corpus Christi, and most recently the Lower Mountain Fork River in Broken Bow, OK. Thank you for Carol Olewin, our outing coordinator, who stepped up along with Jan Bates to organize the saltwater outing when no hosts were forthcoming. We had a small group but everyone seemed to have a great time. Broken Bow in November was a hit as well with beautiful cabins for lodging, beautiful weather, and lots of trout. Thank you to Trustee Cathy Case and Newsletter Editor LaJan Barnes for a wonderful job putting together a full menu of activities in addition to fishing including Texas Hold ‘Em poker with half the proceeds

Upcoming 2020 TWFF Outings:

- January 17-19** - Guadalupe River
- March TBD** - White Bass or other warm water outing
- May 2** - Nueces River Bud Priddy Tournament w/ Alamo Fly Fishers

Canyon Lake/Sattler, Texas – Guadalupe River Fresh Water Outing January 17-19, 2020!

When: January 17-19, 2020

Where: Canyon Lake/Sattler, Texas

Fishing Waters: Freshwater fishing for trout

Outing Hostesses: Linda Leal (lindaaleal@gmail.com) and Kathy Smart

Contact Information: Carol Olewin, twffoutingcoordinator@yahoo.com

Mullet Mixer: Friday night January 17, 6:30-8 PM.

TWFF Outing Fee: \$25, this fee covers expenses the club incurs for outings, i.e., supplies, catered meals, meeting room fees, speaker fee, etc.

Trout Fishing on the Guadalupe River - January is a great time to fish for trout in central Texas' great Guadalupe River. The weather can sometimes be a bit challenging but the trout fishing is worth the challenges.

Trout only live in fabulous places, so please join TWFF on January 17-19, 2020 fishing for big rainbow trout in the well-stocked waters of the Guadalupe River. Our fishing will concentrate in the several miles below Canyon Lake Dam, which is approximately a one-hour drive south of Austin and just east of New Braunfels, TX off Texas Hwy 306.

TWFF Weekend Schedule

Friday – January 17

Friday night Mullet Mixer: January 17, 2020, 6:30-8 PM. **Community Resource and Recreation Center (CRCC) of Canyon Lake**, 125 Mabel Jones Dr, Canyon Lake, TX 78133 (aka Sattler, Texas). Bring a covered dish to share at this pot luck gathering. We will begin eating at 6:30 pm with a speaker at 7 pm to tell us about fishing on the Guadalupe River. Speaker will be Donovan Kypke of Reel Fly shop in Sattler.

Message from the President (cont'd)

benefiting Casting for Recovery (CFR) and fun swap meet to buy/trade/donate fishing gear and apparel. I was so pleased we raised more than \$500 in a single weekend for Casting for Recovery, and congratulations to Sheryl Latham who won the beautiful TFO rod combo raffle benefiting CFR. I am so proud to report that our 2019 donation to Casting for Recovery will be \$1600.

I have been fishing the beautiful Guadalupe every weekend since late November when Guadalupe River Trout Unlimited began stocking, and I am so glad to be back to nymphing, my favorite style of fly fishing. I hope to see many of you at our Guadalupe outing MLK Day weekend in January, with lodging available at the Maricopa Riverside Lodge, which has great fishing and is where I had the most thrilling catch of my life so far – my first trout on a dry fly last Spring! Linda Leal and Kathy Smart have graciously stepped up to host this gathering.

Our club can only continue to thrive with your help. We have a number of volunteer opportunities. We are in desperate need of volunteers to act as co-hosts (usually 2) for the 2020 outings, most urgently someone for a Feb/March/April (usually March) outing. If you are not sure where/how to host, just peruse the entire history of TWFF outing write-ups on the website at www.twff.net and copy a previous one. We are also already committed to the first weekend in May for our third outing, again at the Nueces River for the Bud Priddy tournament near Camp Wood, TX. Please contact me at info@twff.net or on GroupMe with any questions or ideas.

TWFF Weekend Schedule (cont'd)

There will be a silent auction for a guided fishing trip on either of the Guadalupe, Blanco or San Marcos Rivers by Spoke Hollow Outfitters (<https://hookandfield.com>), custom made 5wt fly rod, and many more items.

Saturday, January 18: Fishing

Fish the day away. If you need casting, rigging, and/or the basics of how to start fishing you must register in advance so we know who and how many want instruction and help. No help is too small to ask. We all need a little help from our friends! We will have fishing buddies available as well.

Saturday Dinner 6:30-8 PM

Dinner catered by Coopers Bar-B Que (included in the outing fee). Our TWFF business meeting will begin at 7 pm. You must be a current member to vote on TWFF business during the meeting.

Sunday: Fish away with your buds! It's better to not fish alone.

Recommended Equipment and What to Bring:

- Texas Fishing License
- 5 wt rod, 5wt leader, 5x tippet, bobbers or indicators, dry fly treatment
- Forceps and line clippers
- Whistle, sunscreen, bug repellent
- Long sleeved shirts, muff, brimmed hat, polarized sunglasses
- Waders with leggings (1-2 layers) underneath, water will be cold. Dress in layers for weather changes.
- Wading boots, wading stick, and
- Net in anticipation of the catch!

Casting - THIS IS ONE OF THE MOST IMPORTANT ASPECTS OF FISHING. Practicing is the best way to improve your skills! Remember, even the experts practice their casting.

RIGGING (Courtesy of FFI, with edits from LaJan Barnes)

Fundamental Rig: WFF Line (weighted for fly line), 9 ft tapered leader for dry fly (no strike indicator needed)

Nymph Rig: WFF Line, 9 ft tapered leader for nymph fly, set strike indicator above fly.

Dropper Rig: WFF Line, 9 ft tapered leader, tie on a dry fly, add a length of tippet (depends on where the fish are holding and depth of water), then tie on a nymph (no strike indicator needed). The dry fly acts as an indicator and as an added bonus may catch fish!

Double Dropper Rig: WFF Line, 9 ft tapered leader tie on a nymph, add a length of tippet (depends on where the fish are holding and depth of water), tie on a second nymph, set a strike indicator.

Euronymph Rig: WFF or euronymph-specific fly line, Rio brand euronymph leader (approx. 11 ft) with built-in sighter (in place of strike indicator), and included tippet ring 4-5 ft. of tippet (fluoro preferred), tungsten weighted flies. A 10-11 foot long rod, typically 3-weight rod preferred but not required for this tight-lining setup.

About the Guadalupe River:

USGS Current River Conditions:

Texas Parks and Wildlife Department:

<https://tpwd.texas.gov/fishboat/fish/management/stocking/guadalupe.phtml>

The Guadalupe River, located in Central Texas near New Braunfels between Austin and San Antonio is the southernmost freshwater trout fishery in the United States. It is recognized as one of the top 100 trout fisheries in the country. For a full description of GRTU and the river check out <http://www.grtu.org/about/>. GRTU, as well as TPWD, regularly stock this section of the river with **VERY** nice Rainbow Trout.

Area Map and Access points:

All land along the Guadalupe River is private property. There are many access points, but they are privately owned. Assume \$8-12 a day for private access points. More information on access points will be made available at the Friday night Mullet Mixer so don't miss it. Local fly shops can also provide information on pay for access locations.

Broken Bow Outing Recap (by Cathy Case and LaJan Barnes)

Greetings TWFF members: Our end of year outing to Broken Bow, OK and fishing the Lower Mountain Fork River was a huge success. The first weekend of November proved to be very cold for fishing but we had about 24 members, guests, and new members who braved the cold. It was the best weekend in Broken Bow for this event in 3 years, with beautiful sunny days and cold crisp mornings. Our hosts this year were LaJan Barnes and Cathy Case. The weekend was full of swapping and buying old and new clothing, equipment, and fishing related items. About 16-20 people stayed in the two luxury cabins, which proved to be very useful and enjoyable. Plus, having a full kitchen in both cabins made it easy to prepare and serve the food for our dinners both Friday and Saturday nights! Plus we had the use of hot tubs and fire places, and plenty of room for everyone to gather and hold our meetings and just hang out after fishing.

Eleven early arrivals met up on Thursday at the Hochatown Saloon for dinner and adult beverages. We set up the swap meet and held all non-fishing activities at the Cornerstone cabin.

A few members were able to get out Thursday with guides and catch many rainbows and learn about this beautiful place to fish. Our Friday night pot luck was the best, everyone filled up and the deserts never ended. Our after dinner speaker was Eddie Brister, owner of Beaver's Bend fly shop, representing the Lower Mountain Fork River Foundation. His presentation covered the history of the river and the continued changes of this river. Eddie also donated his TWFF speaker honorarium back to LMF River Foundation. Also in attendance was the Beaver's Bend Fly shop guide Cody, whose services for Saturday were raffled off. Cody was an awesome young guide who went beyond helping all who had the opportunity to fish with him. He even let Dana demo his Euronymph setup when he was passing by on Sunday and in 10 minutes got her on her biggest trout of the weekend. Our winners for the guided fishing raffle were: Sheryl Latham, Cathy Case, Julie Sieh, Marilyn Young, Christine Murrell, Sylvia Garcia, Stormi Johnson, and Carol Olewin. Many fish were caught! Check the GroupMe app for more photos not shown here.

Broken Bow Outing Recap (cont'd)

A TWFF-packed cabin on Saturday night was spent holding our business meeting, sharing the fishing details of our day out on the River, more raffle drawings, and Texas Hold 'em Poker! Big Thank You to LaJan for grilling up the burgers and hotdogs to end our day. After dinner and our business meeting we raffled the donated items. There were 14 raffle items and winners! The antique Creel was won by Doug Fink, and I'm sure wife Paula will help him put it to good use. A excellent fly box with flies donated by World Class Anglers of Victor, Idaho, was won by Sheryl Latham. Sheryl was the big winner during this event winning three drawings, which included a guide spot, the fly box, and the coveted 5 wt CFR rod and reel!

Sad to say that this year we were having so much fun that we forgot to capture photos of some of the event winner and a group photo of all attendees. We are not sure how that happened. So Sheryl sent us a photo with the most important item—the CFR rod, taken at her home.

Congrats to her and everyone who won raffle items at this outing. Other winners of raffle items included: Dana, LaJan, Doug, Christine, Julie, Patsy, Michealla, Sylvia, Carol, Deborah, and Stormi. Half of the prize pool from the 6-hand poker tournament (\$10 entry) went to CFR and the other half was split between Randy and LaJan.

History—Lower Mountain Fork River Foundation

A Brief History Lesson and Introduction to the Lower Mountain Fork River Foundation

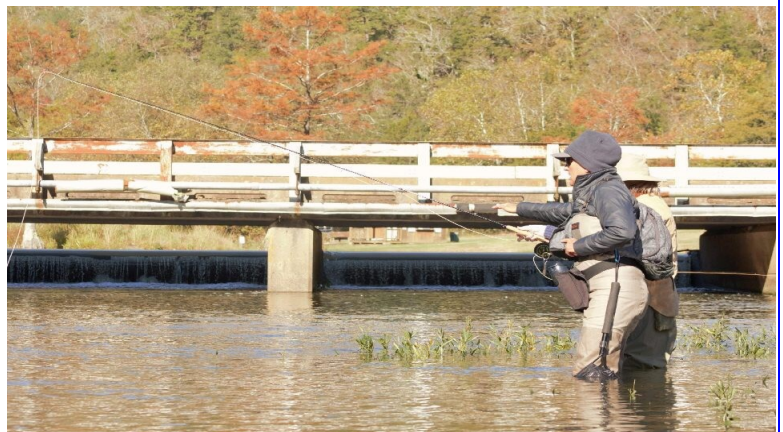

By Deborah Tepe

Rainbow trout were first introduced in the Lower Mountain Fork River (LMFR) in 1989 by the Oklahoma Department of Wildlife Conservation (ODWC) through the winter trout program, which had already been in place for three decades. This additional stocking location in Beavers Bend State Park was particularly successful, and eventually brown trout were also introduced. The year round cool tailwaters below Broken Bow Lake provided a pristine environment for the newcomer (nah-nih, "fish" in Choctaw.) The gem of a pairing resulted in a truly unique Oklahoman experience. Clean water full of nutrients supplied substantial bug life for the trout while the hilly geography of the Ouachita (Quapaw and Caddo, "good hunting ground") Mountains and picturesque flora along the Spillway Creek banks provided prime cover for trout to call home.

In 2002, the owners of then Three Rivers Fly Shop and now Fish Tales Winery, Jesse and Linda King, founded the LMFR Foundation in order to give additional monetary support to the ODWC for the LMFR trout fishery. Major projects aided by funds from the Foundation include the 2005 Evening Hole restoration project, which turned a slow water marsh-like section of water into reliable trout habitat in what is now arguably the most popular hole on the LMF. This project also started another called Lost Creek that created a small stream, which meandered through the woods starting from Cold Hole Bridge and rejoining above the start of Evening Hole. After the flood of 2009, 13 conservation pools were built along Spillway Creek to mitigate that damage. Other support from the Foundation has come from the different activities and organizations for which members volunteer, including river clean ups, the Oklahoma Youth Forestry Camp, Reel Recovery, Project Healing Waters Fly Fishing, and North Texas Patriot Anglers. The Foundation also provided funds to the Park Rangers that went to radios and a drone as well as GPS markers on the hiking trails. Bear-proof trash cans and a stocking trailer were also purchased by the LMFR Foundation. This past year the Foundation made a great purchase of 8,000 fingerling brown trout that were stocked by a volunteer bucket brigade in April.

Now, those of us who have visited the park since the 2015 flooding know Spillway Creek in an entirely different way and Lost Creek is now a memory, buried under a new day use parking area. All past restoration effort put into those sections through the LMFR Foundation, along with some others have been erased. Since then habitat improvement activity on the river has been fairly quiet but in the future lay golden opportunities for this little SE Oklahoma tailwater.

Please check out the website at lmfrfoundation.org for additional information on how the Foundation helps the river. If you're in the area this coming February 28-29th please come by Friday @ 5 pm for our public board meeting (there will be food). On Saturday, Foundation members can also participate in our 2020 Annual Mystery Fly® Fundraiser Tournament.
